This page left intentionally blank

Why is This Module Needed?

This module is needed because the **Ubercart Order** module version **3.13**:

- Displays unnecessary information in the **Summary** section of the **View** tab of the **User** area
- Provides an **Orders** tab in the **User** area that fails to translate all screen elements

Unnecessary View Tab Information

This module removes this feature.

Orders Tab Translation Failures

This module includes instructions in its **Help** page regarding how to disable the view that produces this screen in order to accommodate the **Ubercart Multilingual User Order Tab** module

What Does This Module Depend On?

This module depends on the following modules:

• Product	contrib	ubercart/uc_product
• Image	core	image
• File	core	file
• Field	core	field_ui
• Field SQL storage	core	file_ui/field_sql_storage
• Store	contrib	ubercart/uc_store
• Rules	contrib	rules
• System	core	system
• Entity API	contrib	entity
• Entity tokens	contrib	entity_token
• Views	contrib	views
• Chaos tools	contrib	ctools

What Does this Module Provide?

This module provides:

1. A Module-related **Help** link in the **Modules** page
2. A module-related **Configure** link in the **Modules** page
3. A module-related **Permissions** link in the **Modules** page
4. A module-related **Help Topic** in the **Help System**
5. A module-related **Help Page** in the **Help System**
6. A module-related **Link** (or **Links**) in the Administrative Menu
7. A module-related **Configuration Page** (or **Pages**) in the **Administrative GUI**
8. Module-related **User Page(s)**, **Element(s)**, **Widget(s)** or **Functionality** in the **User GUI**

What Happens After Installation?

Modules Area

Help Link

A module-related **Help Link** appears in the **Modules Area**:

[modules area help link image]

Configure Link

A module-related **Configure Link** appears in the **Modules Area**:

[modules area configure link image]

Permissions Link

A module-related **Permissions Link** appears in the **Modules Area**:

[modules area configure link image]

Help System

Topic

A module-related **Help Topic** should appear in the **Help System**:

[help system topic image]

Page

A module-related **Help Page** should appear in the **Help System**:

[help system topic page image]

Administrative Menu

Menu Item(s)

A module-related **Menu Item** (or **Items**) should appear in the **Administrative Menu**:

[administrative menu item image]

Sub-Item(s)

A module-related **Menu Sub-Item** (or **Sub-Items**) should appear in the **Administrative Menu**:

[administrative menu sub-item image]

Administrative Pages

Configuration Page(s)

A module-related **Configuration Page** should appear in the **Administrative GUI**:

[administrative GUI landing page image]

Permissions Page

A module-related **Permissions Page** should appear in the **Administrative GUI**:

[administrative GUI landing page image]
